

TRIAX

connecting the future

IPTV NO NEW CABLES

The new TRIAX EoC MediaConverter

- Fast, reliable IPTV services to guests
- Delivered over existing coax cables
- Low costs: no need for new cabling
- No disruption: quick, discreet installation

triax.com

ALL THE VALUE OF IPTV SERVICES NONE OF THE COSTS OF NEW CABLES

Give guests the entertainment they demand with the **new TRIAX EoC MediaConverter**.

TRIAX EoC uses the coax cables already installed to send IPTV services around a hotel. That's a fast, reliable gigabit IP network ready for all the IPTV services a hotel wishes to offer – without the cost and disruption of new cables.

The TRIAX EoC MediaConverter fits snugly onto the back of each TV, sending out the network signals while maintaining the standard DVB TV signals.

Installed across the hotel quickly and efficiently, TRIAX EoC opens up a huge new range of viewing possibilities that satisfies the guest demands of today and the future.

Connected TVs, contented guests

Our best-in-class G.hn Wave 2 technology makes all the benefits of IPTV services possible, for a fraction of the price and none of the installation disruption.

ADDING VALUE ON DEMAND

- Open up a huge range of connected services that add value for hotel guests.
- Examples include Video on Demand, guest Wi-Fi or in-house promotional channels.

HOME FROM HOME STREAMING

- Serve guests their own streaming services directly onto hotel TVs.
- Fastest network in its class, for reliable OTT streaming and low-latency gaming.

HIGH QUALITY NETWORK

- High bandwidth, low latency and the most reliable IP over coax performance.
- Perfect for a wide range of guest entertainment possibilities.

Quick, secure, discreet

- Installed in a matter of minutes.
- Tucks in neatly behind the TV: out of sight, no mass of cabling.
- Tamper-proof, secure fixing.

TV out

- The standard DVB TV service, delivered just as usual.

EoC in

- The combined data and TV signals, straight from the EoC controller via the coax cables the hotel already has.

Ethernet out

- A fast, reliable 1 Gbps IP network connection.
- Use for IPTV, OTT or any other connected service, like Wi-Fi.

Power-saving flexibility

- Can be powered directly from the TV.
- Comparable devices use up to 100% more power.

Product shown actual size

The TRIAX EoC family

Unleash the power of your existing cables.

Our full suite of EoC products delivers fast, reliable networking over coax, with no drilling, no new cabling, and no rooms out of service.

EoC Controller

The EoC backbone sends Data & TV signals around the hotel.

EoC MediaConverter

Separates IPTV services and DVB TV signals; competitively priced.
