Highlights

Top surface can be cleaned

The top surface of this Philips Professional Remote Control is flat, making it easy to clean with alcohol. The flat surface is also hygienic: no raised buttons means no crevices for germs to get into.

White design for healthcare

The white design and rounded edges give this remote a clean, friendly appearance-perfect for use in healthcare environments. Essential buttons are color-coded and conveniently placed, ensuring ease of operation.

Lockable battery compartment.

The lockable battery compartment is secured with a screw, ensuring batteries can only be removed or changed by staff.

Low-battery detection

When the battery in your Philips Professional Remote Control runs low, a notification appears on the TV screen. Allowing you to change the batteries before service is affected.
